

APPENDIX

VERSION WITH MARKINGS TO SHOW CHANGES MADE

Changes made to the application by the present amendment are indicated below, with brackets indicating deleted matter and underlining indicating added matter.

IN THE SPECIFICATION

The replacement section entitled "CROSS-REFERENCE TO RELATED APPLICATION" which was added to page 1 before line 1 as requested in the amendment of October 22, 2001, has been deleted and replaced with the following replacement section:

--CROSS-REFERENCE TO RELATED APPLICATION

This application is a continuation of application Serial No. 08/844,431 filed on April 18, 1997, now U.S. Patent No. 6,037,995, the contents of which are incorporated herein by reference in their entirety.--

IN THE CLAIMS

Claim 19 has been cancelled.

New claims 24-32 have been added.

Claims 12, 16, and 21 have been amended as follows:

--12. (Twice Amended) A digital broadcasting receiver which displays video or a plurality of character information strings of programs when receiving digital broadcasting, comprising:

an omission display controller which omits a part of a character information string of a particular program when a number of characters in the character information string of the particular program is larger than a number of characters which can be displayed in a first prescribed zone; and

a full display controller which displays, in response to a predetermined selection,

an entirety of the character information string of the particular program [and time information of the particular program] in a second prescribed zone, and

a program start time and a program end time of the particular program in a third prescribed zone outside the second prescribed zone.--

--16. (Amended) A digital broadcasting receiver which displays video or a plurality of background information blocks indicative of program time when receiving digital broadcasting, comprising:

a display change controller which changes a background information block indicative of program time when the background information block indicative of program time cannot be displayed in full in a first prescribed zone; and

a full display controller which displays, in response to a predetermined selection, full program time

information of the changed background information block
indicative of program time in a second prescribed zone;
wherein the second prescribed zone is constantly
displayed at a fixed position.--

--21. (Amended) A digital broadcasting receiver which
displays video or a plurality of background information blocks
each indicative of a program time period when receiving
digital broadcasting, comprising:

a display change controller which changes a
displayed shape of a particular background information block
indicative of a program time period when the program time
period indicated by the particular background information
block exceeds a program time period which can be displayed in
a first prescribed zone; and

a full display controller which displays, in
response to a predetermined selection, a program start time
and a program end time of the program time period indicated by
the particular background information block in a second
prescribed zone;

wherein the second prescribed zone is constantly
displayed at a fixed position.--
